Information and education facilities | COVID-19 Safety Plan

Safety Plan for libraries, museums, galleries, zoos, reptile parks and aquariums.

Follow the steps below to ensure your business, staff and customers stay COVID Safe.

Show all

1 Keep your business COVID Safe

.

Under WHS law, all employers or businesses are required to assess and manage the risk of COVID-19 to workers and others in the work environment.

To understand the risks to workers and other persons, employers must consider the risks associated with COVID-19 in the context of their workplace, including the physical layout, the work carried out at the workplace and interactions between workers and other persons who attend the workplace.

Employers are then required to implement reasonably practicable control measures to manage the risks of COVID-19 specific to their workplace (this may include a vaccination requirement for workers). Visit SafeWork NSW (https://www.safework.nsw.gov.au/resource-library/COVID-19-Coronavirus) for more information.

Employers and businesses must also ensure they comply with any mandatory requirements under <u>NSW</u> public health orders (/covid-19/stay-safe/rules).
